

NOTICE OF AVAILABILITY

JBER Environmental Restoration Site TU091 Engineering Evaluation / Cost Analysis

The 673d Air Base Wing at JBER announces the availability of the Site TU091 Buildings 8549 and 8574 Engineering Evaluation / Cost Analysis (EE/CA), dated August 2025, for public comment.

The TU091 EE/CA supports a Non-Time Critical Removal Action (NTCRA) to address potential adverse health effects for current industrial workers due to short-term exposure to trichloroethylene (TCE) concentrations in indoor air at JBER Buildings 8549 and 8574. Additional information for Site TU091 is available at <https://ar.cce.af.mil/> (search Elmendorf AFB, AK).

**A copy of the EE/CA
is available at:**

Public Comments:

The U.S. Air Force will accept comments on the EE/CA during the public comment period of January 15 to February 16, 2026. Comments and questions can be submitted to the AFCEC Alaska Operations Office at PACAF.AFCEC.ALASKA@us.af.mil or 1-800-222-4137.
